

**Featured Product: USB to mini-PCI express card Cradle with on board SMA Connector foot print**

**Model:** USB-mPCIe-M2-EB

CEEDTec **USB mini-PCI express card Cradle II** (Model No. USB-mPCIe-M2-EB). This Card provides a single USB mini type-B connection to main processor platform. Single mini-PCIe connector is provided to suite any mini-PCI express card module (support both Full and Half Length Size) for example HSDPA, HSUPA, 3.5G, WiMax mini PCI express module.

The improved USB-mPCIe-M2-EB also comes with ready foot prints for on board SMA Connectors as well as push-&-hold sim card holder. Four mounting holes are also strategically placed to enable easy fixing for different applications.

USB mini-PCI express Cradle can be used with CeedTec's MPC8241-M3-EP, MPC8241-M1-EP and mPCI-USB-M1-EB boards to create a versatile embedded platform to target various applications.

***Key Specifications:***

Controller	N/A
Interface	Mini-PCIe SIM Card
Dimensions	Width : 40mm Length : 98mm
Indicators	On board WAN connection activity LED USB Power On LED (optional)
OS	Window XP/Vista/Mac/Linux
Model No.	USB-mPCIe-M2-EB

***Applications:***

- HSDPA / HSUPA / 3G mini-PCI express module to USB conversion
- WiMax mini-PCI express module to USB conversion
- EVDO mini-PCI express module to USB conversion
